

About StepUp EMEA

The Siemens Healthineers Women Network "StepUp" was established in 2019 as an employee resource group to **increase team diversity** through **higher female representation across all functions and levels**. StepUp EMEA was established through the internationalization of StepUp as a new Chapter on the 18th of February 2021 and serves the employees in the EMEA region across all zones and workflows.

We are currently growing into an inspiring community of women encouraging each other to fulfill their goals and ambitions. Join us and help the gender equality in the EMEA region!

Do you wonder how to get started with StepUp EMEA? Then, watch this video and learn all you need to know!

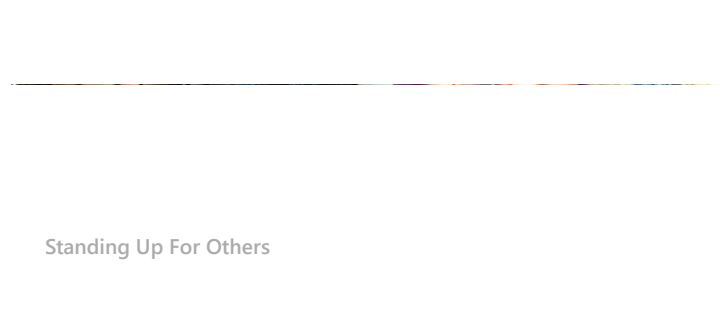

Join StepUp EMEA

The Siemens Healthineers StepUp Women Network for EMEA derives from the Global StepUp Network and just as its bigger sister aims at increasing the team diversity by advocating for greater female representation across all functions and levels in our company.

We would love to have you join us in stepping up and striving towards the next level of gender equality.
